

# HVAC TUNE-UP INCENTIVE OFFER

Prepare for the Arizona summer with an A/C tune up and be eligible for a **\$50 REBATE\***

Living in the desert certainly has its benefits, however, with the desert comes the heat. While we're all aware the Arizona summer can be brutal, your homes HVAC system is what makes it possible to live in this climate comfortably. Over the years it has become a necessity and it is crucial to maintain your system to ensure it is running at peak efficiency.

An inefficient unit will contribute to higher usage, as it will utilize more power to compensate for the desired temperature setting. A few warning signs that your unit is in bad health is to pay attention to the amount of time it is "running" and the frequency of, as well as the noise level.

Investing in a tune up for your system increases the longevity of the unit, restores lost efficiency, and aids in catching an issue before the system fails. Leading to increased cost to repair and being without air conditioning in the dead of summer is not fun!

Electrical District No. 3 is excited to offer their customers a \$50 incentive for A/C tune ups through a licensed HVAC technician! This incentive is valid through the months of March-August 2021! If qualified, the rebate will be applied to your ED3 account as a billing credit within one to two billing cycles of application approval.\*

Helpful tips you can do yourself year-round to maintain your unit:

1. Gently hose down your unit, it will not damage it and will clean out dirt and debris. Avoid hard water pressure.
2. Replace the filters inside the unit and home every 1-3 months.
3. Clean up around the unit monthly to avoid debris and objects becoming clogged. It is recommended to keep a two foot clearance around the perimeter.

## Terms and conditions

- Rebate is only offered to ED3 residential customers. Limit 2 per location.
- Tune up must be done by a licensed HVAC technician within the months of March-August 2021.
- Yearly service contracts must be initially purchased within the publication dates. Monthly contracts are not eligible.
- Must provide a dated paid-in-full invoice from technician.
- Fill out the HVAC Incentive Application Form on [www.ed3online.org](http://www.ed3online.org)
- Submit completed application to [customerservice@ed-3.org](mailto:customerservice@ed-3.org)
